

Why leave the sign? Worksheet

Look at the different animal signs on your biodiversity sheet. Can you tell why that sign was left behind- was it because the animal was looking for food, shelter, or some other reason? Put them in the column that makes the most sense! If you think that the animal left the sign for a reason other than food and shelter, make sure you say what you think the animal was doing. Hint: some signs can go in more than one category!
